## **Description / Action:**

- dwg D2600 updated to change dwg dims to match purchased part. Previous revisions of the dwg had 'ideal' dimensions and didn't reflect the actual mold produced by Bon-L. Therefore, although the dimensions have changed on the dwg, there is no actual design change, and there is no change to the actual part.
- There is no req'd change in production and all existing stock is OK.
